HER MAJESTY'S CORSET

BEST IN THE WORLD

Dear Madame:

It gives us great pleasure to inform you that the Princess of Wales Company, manufacturers of Her Majesty's Corset, will have at our store for two weeks, Mon-day, Nov. 18, to Saturday, Nov. 30, Miss Shimer, one of their expert fitters, for the purpose of explaining to ladies the many merits of Her Majesty's Corset, and the reason why it is superior to any other cor-

set made in the world.

We have a fitting room prepared, and it will give Miss Shimer great pleasure to try upon all those ladies who wish it a pair of Her Majesty's Corsets, thus illustrating, without doubt, that they will give the most perfect satisfaction and create a mag-

We trust that all ladies will avail themselves of this grand opportunity to learn what a perfect fitting corset really is.

We desire it distinctly understood that ladies will not be expected to purchase a Corset if they do not so desire after a fitting is made. Yours very truly,

DISASTROUS FIRE AT WOODSIDE.

Three Houses Burn, with a \$4,900 Loss -A Narrow Escape.

A disastrous fire at Woodside, near Irvington, resulted in the destruction of three houses, 118, 120 and 122 Strowbridge street, yesterday afternoon. The loss on the houses amounts to about \$4,900. The houses were outside the fire limit and a line of hose was laid by the fire department from the Panhandle shops, 1,400 feet away. No. 8 hose company made the long run and nar-rowly escaped a serious accident. As the wagon dashed across the Vandalia tracks wagon dashed across the Pennsylvania tracks a passenger train almost ran into it. Two men riding on the rear step jumped from the wagon and one of them barely missed being struck by the locomotive.

EXPRESS ROBBERS GO TO PRISON. Don Farden and R. J. Barnett Taken North Yesterday.

Don Farden and R. J. Barnett, convicted of robbing the Adams Express Company of \$16,000 at Terre Haute some time ago, were taken to the northern prison by United States Marshal Hawkins yesterday. The men were sentenced for five years and fined \$500 each. With good time deducted, they will serve three years and nine months. Barnett refused to make any statements yesterday as to where he spent the time between his flight and capture. He said he intended to earn all the good time possible.

Others for Michigan City.

Frank Bird and Walter F. Carroll were taken to the Michigan City penitentiary yesterday by Deputy Sheriff Waiters. They are two of a trio arrested by the West Newton Horse Thief Association some days since. They were found guilty of grand larcency. Bird was sentenced for five years and Carroll for two years and six

Dying Alone in a Hut.

Thomas Buschman, fifty-two years of age. was found dying from neglect and exhaustlon yesterday in a hut where he has been living alone at McLain street and the canal. He was taken to the City Hos-pital, where it is said he will die. He was an old soldier and during the war belonged to the Sixtieth Indiana Battery.

Progress on Pumping Stations. The Manufacturers' Natural Gas Company has completed its pumping station. It is adequate for the plant. The Indianapolis Company's pumping station is to be much larger and will probably not be com-pleted till the last of this month. It has been built at a cost of nearly a quarter of a million dollars.

IMPORTANT NOTICE MONEY FOR SALARIES

CONTROLLER JOHNSON WANTS TO MAKE A CHANGE.

Asks for an Appropriation So the Last Quarter of This Year Will Not Be Paid from Next Year's Funds.

The most important matter before the Common Council last night was a communication from Controller Johnson stating that the salaries of many officers for the last quarter in 1895 could not be paid unless the appropriation of 1896 was anticipated. He asked the Council to make a special appropriation of \$32,869.77 to cover the salaries for this quarter, as well as to provide for other expenses. Among other Items mentioned are \$10,000 for sweeping streets during November and December, \$2,800 for laying new cedar blocks on the viaduct roadway and \$5,600 for water. The amount (\$10,000) seems very large for sweeping the streets during November and December, but the controller explains that the full appropriation will not be required unless the weather continues pleasant, without snow or ice. When the streets are

The failure of the city to have money to pay expenses for the last quarter is due to a system which went into effect with the new charter. The very first appropri-We are determined to maintain our ation made by the Council under the charlead as the best and cheapest establish- ter, when Mr. Sullivan was Mayor, was drawn upon to pay salaries that were running two months before the appropriation. This was necessary, it is claimed, on account of the change in the form of government. In this way the last quarter salaries, with the exception of police and fire force rolls, have been met out of appropriations for the year following. The appropriations are available Jan.

1. and the salaries are not payable till
that day. Mr. Johnson thinks it best to have the salaries and expenses of the entire year paid out of the appropriations

for that year, and for that reason he asks an extra appropriation, so that the new year may be began on the new system. "It is my desire to call your attention to the fact that certain expenses, which were incurred in and during the fiscal year of 1894, have been paid out of the appro-priation made for the fiscal year of 1895, thereby leaving the salaries of a large rapidly. number of the city officials unpaid for th last quarter of the fiscal year 1895, and leaving me without any appropriation or funds out of which I can legally pay the same. It seems to have been the intention to pay the salaries for the last quarter of the fiscal year of 1895 out of the appropriation made for 1896. It is my impression that there is no authority given by the charter to use the appropriation for one fiscal year in payment of expenses incurred in another fiscal year. In addition to this it seems to me to be exceedingly important that the expenses of each fiscal year should be paid from the appropriation made for that year, and it certainly is the plain intention of the charter that such should be the case. It is only by doing this that the total expenditures of the city for any particular year can be known with any degree of accuracy. To pay exlast quarter of the fiscal year 1895, and

with any degree of accuracy. To pay expenses, or any portion of them for the year 1895, out of the appropriations for the year 1896 will build up a custom of paying expenses incurred in one year out of the appropriations made for another year, and will lead to confusion in the annual reports of city officers, besides, in my opinion, being improper and illegal ing improper and illegal.
"As mentioned, there is no appropriation to pay certain salaries and expenses for the last part of 1895, and I, therefore, inclose you an ordinance covering these, and trust that with this explanation it may

meet your approval."

Ordinances covering the appropriations asked accompanied the communication and were referred to the finance committee. An ordinance proposed by the Board of Works, and intended to provide for one cus-todian and two assistants for the city offices, was introduced and referred to the committee on fees and salaries. At present there are two custodians, each receiving \$60 a month. The board proposes that one custodian be paid \$50 and two assistants be employed at \$35. The assistants are only needed during the evening, at the cleaning

Councilman Madden introduced a resolution instructing the city attorney to ex-amine the law and see if the Indianapolis Gas Company has the right to charge \$2 for a single stove when the ordinance specifies but \$1.25 shall be charged. Upon motion of Councilman Payne the resolution was amended to include all gas companies, and

Councilman Payne introduced a resolution asking the city attorney to see if the telegraph companies have the right and power to charge for the delivery of telegrams within the city limits, and if the Council has the power to prevent by ordinance such collection of fees. The resolution was adopted unanimously.

The communication from the Board of Works asking that an ordinance be passed prohibiting the sprinkling of improved streets was received and referred to the committee on streets and alleys, with the

mendation that an ordinance be prepared. To the same committee was referred the ordinance prepared by Councilman Cooper, regulating the traffic on Capitol avenue, from New York to Twelfth street. The ordinance prohibits any heavily loaded vehicle from passing over the new macadam pavement, except in cases of necessity. No heavily loaded vehicle shall under any condition travel over the street for more than one block, and when a wagon has a delivery to make at some house on the street it shall enter at the nearest side street. No horses, cows, sheep or other animals shall be driven on the street. A penalty of \$10 is provided for a violation of the ordinance.

Councilman Coulter introduced a resolu-tion amending the one concerning the salaries of the law department, the effect of which will be to increase the salary of the assistant city attorney from \$1,200 to \$1,600 a The ordinance granting the American Starch Works the right to build and maintain a factory at the corner of Morris and Dakota streets passed without discussion A long petition was received asking that

he ordinance renaming the numbered streets be changed. Objection was made to having named streets sandwiched in with numbered streets, and the recommendation is made that if the present old names are undesirable the streets be numbered from Pratt street to Thirtieth street with regularity. The petition was referred to the committee on streets and alleys, and will probably be considered with other recommendations which have been made concerning the ordinance renaming the streets.

COMPLAINTS OF STREET CLEANING. Report that Two Patrolmen Were

Drunk Sunday at a Road House. Residents of College avenue are vigorously objecting to the reports that the streets are being cleaned better than ever before. One man said last night: "College avenue has not been swept for a month, or, at east, its appearance would indicate as much. It is true that the sweepers have been over it, but they left it in a condition no better than they found it. It is all bosh to say the streets are being cleaned. There is another thing I might mention, too. Yesterday (Sunday) a road house, just out of the city limits north, was doing business all day. There were two policemen there, and they stood by and saw beer sold to all comers. I have been told by a man whom I consider perfectly reliable that the policemen were under the influence of liquor?"

JEUP'S APPOINTMENT PERMANENT. A. H. Moore Named as Assistant to the City Engineer.

The Board of Works yesterday appointed A. H. Moore, a draughtsman in the city engineer's office, to the position of assistant city engineer, at a monthly salary of \$100. Mr. Moore will fill the position made vacant by the appointment of B. J. T. Jeup as city engineer, and the promotion of Moore is taken to mean that Jeup's ap-pointment as city engineer is to be a per-John Clegg, an inspector, who served un-der the last administration, was dropped. His place will be filled by a Democrat later

Opening of Lynn Street.

Property owners on West Washington street, across the river, yesterday asked the Board of Works to open Lynn street across the Big Four and I., D. & W. tracks. They did not think the conditions warranted the assessment of benefits and damages, but, instead, wanted the railroad officials to permit the opening. A letter was sent to the officials asking them to confer with the board about the matter.

Not Enough in Bridge Fund. The city found yesterday that it cannot let the contract for the Meridian-street

fund only amounts to \$3,919.08, while the substructure of the bridge alone would cost 33,724.05. Bids on the work were opened last week, after a second advertisement.

Last of Encampment Debt.

Henry Tahking yesterday presented two G. A. R. Encampment bonds of \$500 each, to the controller. They were due in April, 1894, and the city government was beginning to think they had been lost. These two bonds, which were paid, are the last of the encampment debt.

Pogue's Run Sewer.

The Board of Works is planning for a big main sewer to take the place of Pogue's run. It is also considering plans to straighten out the run. A sewer will probably be built as far out as Rural street, near the old boot-and-shoe factory, and occupy the bed of the stream.

Municipal Notes.

The custodian of Tomlinson Hall reports that the electric lights in the hall are now in good working order. The city engineer told the Works Boar! that the Clifford-avenue bridge over Pogue's

run needs new flooring. Complaint was made that the new asphalt on Indiana avenue is not properly drained in front of buildings from No. 60 to No. 78. Dirt from a number of lots on lilinois street, above Twentieth, has washed down on the sidewalks. The property owners were ordered to clean the walks. The sewer in the first alley east of College avenue, from Seventh to Tenth street, has been completed. The total cost was \$2,458.38. The sidewalk on Virginia avenue.

from Huron street to the first alley south, The city engineer informed the Board of Works that it will be necessary to first fill up Illinois street, between Twelfth and Fourteenth streets, before filling up Capitol avenue between the same two streets. This

THE STATE'S FINANCES.

is to obtain proper drainage.

Debt Reduced \$400,000 This Year and \$300,000 Will Be Paid Next March.

With one year in office the Republicans have reduced the State debt \$400,000. This will be shown by Auditor Daily's report. which will be in the hands of the printer in a few days. During the year bonds to the amount of \$1,085,000 were refunded at a reduced rate of interest, and \$27,000 in premiums was saved. Next March \$300,000 of bonds will be due, and it is intended to retire them. The total foreign debt of the State is about \$7,000,000. The next Legislature will be asked to increase the sinking fund levy, so the debt can be canceled more

THE LEMCKE BUILDING.

Drops from the Seventh to the Third Floor and Suffers Injuries That Prove Fatal in a Few Hours.

James Williams, a young man nineteen A. M. Glossbrenner secretary, and L. W. years of age, who has been employed as Pennsylvania and Market streets, fell from the seventh story to the floor of the third story below about 4 o'clock yesterday afternoon. He was on the seventh story carrying water to the workmen when he accidently stepped on the loose end of a plank. The plank tipped up and he fell head first, striking several iron girders in the course of his fall. When picked up, he was unconscious and thought to be dying. The city ambulance conveyed him to St. Vincent's Hospital, where an examination was made of his injuries. broken, and that he was terribly injured internally. Dr. Marsee set the broken internally. Dr. Marsee set the broken are expected to prepare speeches can secure the boy's sufferings, but it was apparent by applying to Mr. Ripley. he could not long survive.

Nothing could be learned of the boy's friends, and it was some time before his name was known. During the evening his two siters called at the hospital. It was then learned that he had been boarding with one of them at 187 South Capitol avenue. At supper time the boy was missed, and later on they learned an accident had occurred and concluded it was their brother who had been injured. They hurried to the hospital and arrived in time to be recognized by their brother before the end came. They were present when his death occurred, about 9 o'clock. The family are Catholics, and the boy was conscious long enough before death to make his confession and converse with his sisters. The sister were terribly affected by the accident and were unable to determine just what should be done. They have another brother living near Terre Haute. A telegraphic message was sent him last night and he is expected here today. Arrangements will be made for the funeral upon the arrival of the brother from Terre Haute this morning. The young man will be buried here.

THE CITY HOSPITAL.

An Inspection Shows the Necessity of a Thorough Renovating.

Some time ago a committee of ladies interested in charitable work about the city exist were attributed to political changes and the lack of funds. As a result of this the board of managers of the Indiana School of Nursing yesterday visited the City Hospital and thoroughly inspected every department of the institution. The committee consisted of Mrs. W. J. Holliday, Mrs. J. H. Stewart, Mrs. D. F. Swain and Mrs. C. B. Coe. The visitors found the walls of the wards black with smoke, and in many apartments the plaster has fallen off and the lath is left exposed. The most deplorable conditions exist in the hospital laundry. A chute connecting with all of the wards conveys the soiled clothes to the laundry, and also conveys the steam from infected clothes back to the wards, where it is breathed by the patients. There is complaint of a scarcity of bedelothing and night obes in all of the male wards. The committre was not favorably impressed with the food served at dinner, and it was reported that roaches had been found in the victuals. None were found yesterday, however, Dr. Wright, superintendent of the hospi-tal, frankly admits that these things exist. He feels humiliated over the condition of He feels humiliated over the condition of the institution, but is powerless to remedy the evils. He says that when he submitted his estimates for next year's appropriation he asked for \$14,000 with which to make necessary repairs. The Board of Health recommended the appropriation, but the Council failed to grant it. Dr. Wright thinks that numerous cases of typhoid fever have developed in the hospital as a result of the impurities carried into the wards through the launary chute. The superintendent has often expended his private funds tendent has often expended his private funds in supplying delicacies in the way of food for patients whom he believed required

NO CHANGES MADE.

West Indianapolis Council Proved a Disappointment to Many.

In the absence of Mayor Tolin, Councilman Wheeler presided at the meeting of the West Indianapolis Council last night, Word had gone forth that further action would be taken on the police and fire department questions and a large crowd was present to witness the proceedings, No business of special interest was before the Council. The water company was directed to extend two of its mains and add some fireplugs. A resolution was introduced and passed requesting the Citizens' Street-railroad Comany to extend the West Indianapolis line five blocks west, one north and six east, forming a loop that would be accessible to considerable more territory than is now cov-

It was announced that some legal point had yet to be determined before the consolidation of the police force and Marshal Perry's deputies, under Marshal Perry as chief of police, would be undertaken. There is some question as to whether Perry can act as chief of police and still retain his office of town marshal. Nothing was said on the subject of changes in the fire department, but it is understood a number of changes will be made. It seems to be the general opinion that no changes will be made in the See the China Closets at Wm. L. Elder's. | bridge over Pleasant run because the bridge | present police arrangements.

ANNUAL CLUB DINNER

WILL BE GIVEN BY THE REPUB-LICANS THANKSGIVING NIGHT.

Committees Appointed and Arrangements Being Rapidly Pushed-The Conference To-Morrow.

Preparations are being made to insure the success of the annual Thanksgiving day dinner of the Marion county Republican clubs. is has come to be one of the events of Republicanism in this county; an affair that brings all together for an evening of pleasure. Yesterday Warwick H. Ripley, according to the instructions of the recent JAMES WILLIAMS LOSES HIS LIFE IN | joint meeting of the clubs, announced the committee that will have charge of the dinner. The committee is composed of W. H. Schmidt, J. J. Higgins, W. H. Hobbs, Thomas Hanna, L. W. Drew and A. M. Glossbrenner. A meeting of the committee was held yesterday afternoon and several subcommittees were appointed which will have charge of the details of the arrangements. W. H. Hobbs was elected chairman,

Drew treasurer. There will be no invitations sent out, but all officers of the various clubs are included in the list and are expected to attend as far as possible. Besides this the officers may invite other members to attend. There will also be arrangements made for club officers from others parts of the State who may attend. By club officers is meant all who are or were during the last campaign officers of a Republican club. As many of these clubs are in active existence only during a campaign many of the officers are not now in active service. The presidents of all the active clubs are expected to prepare speeches or select some other member of their club for this purpose. There will be two general subjects: "Duty of Republican Organizations after Elections and Before Conventions," and "Conduct of Our Primaries." The different officers who The place for having the dinner has not yet been selected, but it is thought likely that it will be given at the Denison. In this case the Marion Club will be thrown open during the evening and those in at-tendance will meet at the clubrooms.

THE CONFERENCE TO-MORROW.

Candidates Will Be Here and a Large Crowd of Workers Expected. To-morrow afternoon the Republicans of the State will gather in annual conference Republican Club, opposite the Denison House. It is expected that many of the leaders will reach the city to-night and begin active work in an effort to secure all the nfluence possible for their favorite candidates for State offices, most of whom will attend the conference. The prevailing feeling of confidence in the result next year will bring a large number of people here.
